Mobile-First Hi-Fi

Scandium Enables The Personalized Home Theater Experience

No Set-Up Drama

Truly Plug 'n Play: Plug in the power cable to the USB port on your TV. Plug the output of the TV into Scandium. Choose Optical or Aux. Put any Bluetooth headphone into pairing mode. Press one of the two pairing buttons. That's it. Your TV is now wireless!

Defined Dialog

No more riding the volume on movies that are poorly mixed for normal people in their living rooms. Set the volume to an enjoyable level, without disturbing your neighbors!

Universal Upgrade

Whether it's 5 minutes old, or 5 decades old, level up your existing sound system by adding high quality, ultra reliable Bluetooth transmission skills. Works with ALL Bluetooth headphones.

Auditory Enhancement

Scandium's Exclusive Optical and Aux pass-through allows users to run traditional speakers in parallel with Bluetooth headphones and hearing aids.

Be Creative!

Scandium can also be viewed as a Pre-amp with Bluetooth output. Plug-in a phono preamp and broadcast to Bluetooth speakers or headphones in another room. Extend the game's play-by-play to speakers on the patio. The possibilities are endless...

Inputs: 3.5mm Analog & Optical

Outputs: 3.5mm Analog & Optical

Codecs Supported: SBC, AAC & aptX-LL and aptX.
