

Hey! This is a file where are partpicker lists. The lists are for different budgets. I try to update the lists every week, because prices change, and new parts are being launched. These lists are currently USA only. Have fun!

CHANGELOG:

29.4.2020. Due to corona, replaced overpriced “corsair cx” psu’s with “be quiet pure power 11 600w” units. Found cheaper ram so replaced the old one’s with the cheaper ram. Replaced “cougar mx 330” case with “fractal design focus g” since the price had risen. + Minor tweaks.
